

Inoscent® Ant Repel

Product Description

Inoscent® Ant Repel is a naturally inspired, essential oil-based spray made with Citronellal, Peppermint and Cymbopogon Winterianus Oil. It's designed to gently discourage ants from entering homes, gardens and outdoor spaces, while leaving behind a fresh, pleasant scent.

Benefits

- Helps keep ants away
- Suitable for use indoors and outdoors
- Fresh, natural fragrance derived from botanical oils
- Suitable for use on non-porous and porous hard surfaces
- Formulated without conventional synthetic insecticides.

Properties

Appearance	Clear liquid
Recipe Type	Essential oil-based
Active Ingredients	Citronellal (0.99%); Peppermint Oil (0.99%); Cymbopogon Winterianus Oil (0.6%)
Density	1.0 g/cm ³
Size(s) & Packaging	500 ml sprays and 5 litre jerry cans
Storage	Store in dry conditions, out of sunlight in the original container. Store between 5°C and 25°C. Do not allow to freeze.
Shelf Life	12 months

Application Information

Preparation

Test on a small inconspicuous area before full application. If you're experiencing an ant problem, **Inoscent® Ant Repel** works best as part of a simple, thoughtful approach. To help get the best results:

- If possible, try to identify the ants. Common types include the Black Garden Ant (*Lasius niger*), the Argentine Ant (*Linepithema humile*) and Pharaoh Ants (*Monomorium pharaonis*).
- Notice the paths they follow and, where you can, block the entry points.
- Remove anything that might attract them, such as crumbs, sugary spills, or uncovered food. Keeping food in sealed containers can help.

Before applying, clean the area thoroughly to remove any existing trails or residue. This helps disrupt the scent trails ants use to navigate and find their way back. Then spray **Inoscent® Ant Repel** directly onto the cleaned surfaces.

Application

Read the label before treatment. When using **Inoscent® Ant Repel**, focus on the areas where ants are most active. This might include door thresholds, windowsills, and small cracks or gaps where they may enter the home. The level of repellency may vary depending on the surface, so for best results, reapply as needed. If any residue remains, it can be easily washed away with water.

Precautions

Avoid contact with skin and eyes. If contact occurs, wash with plenty of water and soap. Contains Peppermint Oil, Cymbopogon Winterianus Oil and Citronellal which may produce an allergic reaction. Individuals with fragrance allergies should take precautions before use.

Other Information

Store in a safe place. Keep away from food, drink and animal feedstuffs. Keep out of reach of children and animals. Unprotected persons and animals should be kept away from treated surfaces until dry. For full health and safety information consult Safety datasheet (available on request). Always read the label.

This material and its container must be disposed of in a safe way, according to local regulations. Do not empty into drains. Do not contaminate ground, waterbodies or watercourses with chemicals or used containers.

Inoscent® Ant Repel is produced in accordance with ISO 9001 and ISO 14001 quality and environmental management systems.
